

Mactac JT 7000 Series - Perforated Window Films

See-through promotion power

New **JT 7000 Perforated Window Films** give you the power you need to create unique graphics on glass surfaces - in buildings or vehicles - without having to compromise on transparency. This see-through series has great visibility. It's a go-to choice when you want to play with levels of illumination and bring your custom graphics into the spotlight. Just choose the grade of visibility that fits, and then print vibrant colours on any large format digital printer (eco-solvent, latex or UV).

Key features

- Perforated films with varying amounts of see-through
- Different open areas (by %)
- Vibrant print on eco-solvent, latex and UV printers
- Warranted durability (printed and laminated)
- EN 13501-1 certified
- Vehicle certification available
- Thick liner

Advantages

- Window promotions that retain important see-through
- Many different applications: architectural and fleets
- Vivid graphics on the print platform of your choice
- Dependable and warranted performance over time

Mactac JT 7000 Series - Perforated Window Films

Applications

The JT 7000 Series - Perforated Window Films is an excellent choice for converters and sign-makers who specialize in corporate branding, or who create retail and point-of-sale displays. These films are also outstanding performers in public spaces such as offices, museums, restaurants, hotels and hospitals.
