

New JT 9300 & LF 9300 series

NEW Intermediate calendered range

Raise your game and expand your choices

The new JT 9300 Intermediate Calendered range is designed for challenging projects that require excellent printing performance and visual impact. It offers a wide choice of finishes and adhesives - and a complete series of LF 9300 UV overlaminates, for additional resistance to physical challenges.

Ensuring high performance on flat and slightly curved surfaces, this series benefits from 5-year outdoor unprinted durability.

Advantages

- Popular choice for large printed displays on flat or slightly curved surfaces
- Choice of adhesives: removable, permanent, and Bubble Free for easy application
- Variety of finishes for maximum impact
- Stable PE liner, with optimum printing across all major print platforms
- Outstanding results with LF 9300 UV laminating films (gloss, matt and satin finishes)

JT 9300 Intermediate Films

Applications

- Specially developed for short-to-medium term applications
- Indoor and outdoor and vehicles on flat and slightly curved surfaces
- Displays, signs, POS
