

Mactac JT 8510 WM-PG PP

The PVC-free short-term performer!

For short-term promotions, PVC-free JT 8510 WM-PG PP is hard to beat. It's a digitally printable film that not only gives you the eye-catching graphics you want but also provides the reassurance that you're using a more sustainable solution. This material doesn't use chlorine, phthalates and other halogens, and it cuts down on volatile organic compound (VOC) emissions.

Whether you're working on store displays, events or on many other indoor locations JT 8510 WM-PG PP is easy and fast to apply thanks to good rigidity. Because it's PVC-free and also features a solvent-free, water-based adhesive, it helps you to support your end-users who want to improve their own environmental footprint - without sacrificing visual impact. The material has full fire-resistance certification.

Advantages

- Easier handling and application
- Improved sustainability
- High visual impact
- Simple to convert
- Meets fire regulation requirements

Mactac JT 8510 WM-PG PP
